## DETAILED ACTION

This Office Action is in response to Amendment filed 8/19/06.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16, 18, 20-23, 31, 36, 45, 47, 49 are rejected under 35 U.S.C. 102(b) as being anticipated by Bingham et al (U.S. Pat. 5,289,589).

Regarding claims 16, 31 and 45, Bingham et al discloses a media picker assembly (figures 1-6), comprising:

a plunge assembly 6 operable to travel along a frame to engage a media cartridge;

first and second cables 51, 55 each adapted to communicate a predetermined set of signals to the plunge assembly, the first cable operating in a standby mode when the second cable is operating in an active mode (see figure 5 and column 8, lines 27-43).

Regarding claims 18, 36, Bingham et al show that the first and second cables coupled to different locations of the frame (see figure 5).

Regarding claims 20, 47 and 49, Bingham et al discloses that the first cable adapted to communicate an identical predetermined set of signals as the second cable (cable 55 is a redundant cable).

Art Unit: 2627

Regarding claims 21-22, the first cable 51 extending from the frame 1B to a point proximate to a first end of a frame travel path. The second cable 55, extending from the frame 1B to a point proximate to a second end of the frame travel path.

Regarding claim 23, Bingham et al discloses that the predetermined set of signals comprising signals for controlling the plunge assembly (column 6, lines 48-55).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 44 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 44 is dependent from a canceled claim 43.

### ***Allowable Subject Matter***

5. Claims 24-25, 27-30, 38-42 are allowed.

6. Claims 17, 19, 32-35, 37, 46, 48 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

7. Applicant's arguments filed 8/19/06 have been fully considered but they are not persuasive.

Art Unit: 2627

Applicant asserts in page 7, last paragraph:

“Nowhere, however, does Bingham teach or even suggest that a first SCSI bus is operated in a standby mode when a second SCSI bus is operated in an active mode.”

The Examiner respectfully points out that Bingham discloses in column 8, lines 27-65 that if bus 51 is disabled the other bus attached to the picker could allow the operation of the optical disk drive 4B.

Applicant asserts in page 8, line 6:

“A SCSI bus line is not a cable.”

The Examiner points out that Bingham discloses in column 6, lines 59-66, a SCSI bus is a cable.

### ***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
